 (Order not valid unless signed)

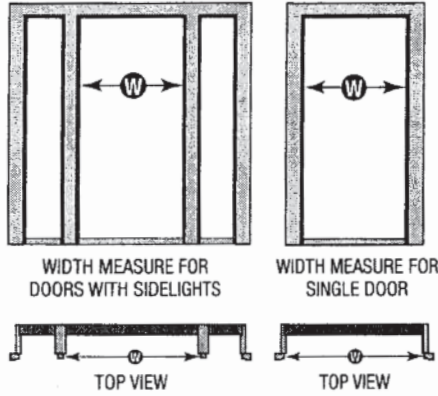

STEPS TO MEASURING AND ORDERING:

1. Measure height as outlined on this page and record your measurement in the appropriate box on the front of the order form.

2. Measure width as outlined on this page, and record the measure in the appropriate box on the front of the order form.

H HEIGHT MEASURE INSTRUCTIONS: For unit height, measure in inches, the distance from the bottom edge of the brick mold header to the threshold directly below the brick mold header.

W WIDTH MEASURE INSTRUCTIONS: For unit width, measure in inches, the opening from the inside of the left vertical brick mold to the inside of the right vertical brick mold. **PLEASE DUPLICATE THIS MEASURE IN THREE PLACES AND USE THE NARROWEST AMOUNT.**

If you have any questions regarding measuring a storm door, contact a customer service representative at 1-800-781-2100.

HOW TO COMPLETE YOUR STORM DOOR ORDER FORM:

<p>1 Door Style</p> <p><i>Step #1</i> Check the box that represents the order package you are receiving from Paragon.</p> <p><i>Step #2</i> In the blank space at the end of your selection, record the style number for the storm door you have chosen.</p>	<p>4 Hardware</p> <p><i>Step #1</i> Check the box that represents the hardware style you would like, and circle the finish (if applicable).</p> <p><i>Step #2</i> If ordering Corsica mortised hardware, there is a possibility that the lock hardware may hit the entry door hardware. If purchasing a storm door with a Paragon New Construction entry door that has a jamb depth of LESS than 4 9/16, a hardware conflict is likely. Select whether or not you would like the mortising to be offset to avoid the hardware conflict.</p> <p>NOTES:</p> <p>1. For the Color Matched Latch, a deadbolt and key is available, but this product will not be keyed to the same key as the entry door (if ordered together).</p> <p>2. The Corsica mortised lock hardware can be keyed to the same key as the entry door. If you would like this option, make sure to circle the correct finish indicator.</p> <p>3. The Normandy surface lever and Brittany surface lever lock hardware <u>cannot</u> be keyed to the entry door.</p> <p><i>Step #3</i> Circle the expander finish you would like at the bottom of the storm door.</p>	
<p>2 Door Size</p> <p>Only complete the measures for this box if you are receiving a storm door from Paragon accompanied by a Replacement style unit (with steel L-frames instead of a wood jamb) or are receiving a storm door only.</p> <p><i>Step #1</i> Measure and record the opening height as diagramed on the front of the order form.</p> <p><i>Step #2</i> Measure and record the width as diagramed on the front of the order form.</p>	<p>5 Screens</p> <p><i>Step #1</i> Select the type of screen you would like with your storm door.</p>	
<p>3 Door Hinging</p> <p><i>Step #1</i> Check the box (or circle the selection) that represents the swing you would like for your storm door.</p> <p><i>NOTE:</i> If, at the time of order, you are not sure which swing option would be best for your application, check UNI HINGE. This will allow the installer to have the flexibility to install the unit as either a right or a left hinge.</p>	<p>6 Tinted Glass</p> <p><i>Step #1</i> If you would like a slight tinting to your glass, circle selection.</p> <p><i>NOTE:</i> In the Elegance models, this option is only available in the 951 style unit.</p>	
	<p>7 Pre Finished Colors</p> <p><i>Step #1</i> Select the color you would like for your storm door.</p>
